## Letter to parent re vaccines for 12-15 year olds

Dear parent/carers

You will no doubt be aware that the Government has now confirmed 12 to 15 year olds can be vaccinated against COVID-19.

Though we await detailed information, we understand the programme will roll out via schools. As is the case for other vaccination programmes, we will work closely with local NHS professionals to play our role as appropriate. This will include seeking consent from parents/carers in the usual way.

As soon as we have further details or additional information from the NHS we will of course share it with you.

Kind regards

Mrs R. Bakewell  
Head of School

Mrs R. Shell-Macleod  
Head of School
