

## Year 6 Primary Resource for Travelling to Secondary School

Hi,

Usually at this time of year I visit Year 6 students and speak to them about how they will be travelling to their new secondary school in September. For many students this is the first time they will have travelled independently using public transport. Even though we can't visit students at the moment, we still want students to be able to travel safely and with confidence as we all have a part to play in keeping ourselves safe. I have put together some resources to help your students feel confident to travel and also how to behave responsibly and safely while travelling to and from school. The resources can be covered in class or as an independent activity for students to complete at home.

The resources are:

- [Presentation on travelling safely and responsibly](#)
- [Notes to accompany the presentation](#)
- [Worksheets and plenary work to support the presentation](#)

For reassurance/advice on using public transport and what it looks like to travel please find links below to 3 short YouTube films covering bus, tram and train journeys:-
